So Good!

By K. Hudecek

Alexander Stravoudas is an architect on the brink of making it big. His business is successful, he's got money to burn, a posh lifestyle, and a beautiful fiancée. He's tall, has long blond hair, and is in good shape...you know the type. He's got it all. Everything is perfect.

Until his fiancée dumps him. He's got a the biggest business deal he's ever had at stake because this emir, with whom he is dealing, wants to deal with a man who is attached to a woman. Alex is angry and goes to the source of his breakup, the woman who'd done the deed of giving him back his ring, Sophia Feuer.

Sophie has her own bakery and works hard at it. She'd moved it into a new building after outgrowing her apartment only to find out later that Alex owns the building and it isn't zoned for a business like hers. She is surprised when he shows up at the back door of the bakery, demanding that she play the part of his fiancée for the next three months. If she didn't do it, he was going to the zoning board and she would lose her business.

There were times when I wanted to punch Sophie in the face. I don't know who died and left her in charge. Who was she to decide the fate of others? It was almost like she was a bad version of Ann Landers or something. She was behind the breakup of Alex and Melanie, the latter of who is one of Sophie's best friends. I thought that gave the story a weird twist but whatever.

Sophia has no choice but to play along with the charade. She hates him and he hates her. They are constantly coming at each other with snide remarks and jibes. Sometimes it's comical. Sometimes it hurts. But they have no choice. They are bound by a contract. They have to see this through.

When they go to Paris, Sophie begins to realize that Alexander is under an incredible amount of pressure and it's not all just from business. He's got something driving him to be perfect and it's not necessarily a good thing. He's got some vulnerabilities that she didn't see at first

She's got a hang-up of her own that prevents her from giving herself to him. Which one will win at the end?

This book was a page-turner with a tight plot, fantastic descriptions of characters and places that they visit, and a great ending. I didn't like Sophia at first because I thought she overstepped her boundaries and toward the end, I didn't like her because she overstepped her boundaries again but it was different that time. Everything was different.

This gets an easy five stars.

### SOPHIE'S PERFECT MAN

By AUNT BEE

Alex was engaged to a friend of Sophie's. Unfortunately for Alex, Sophie wasn't going to let her friend make a big mistake by marrying someone who wasn't right for her.

Alex was in the tabloids and things are going from bad to worse for him. Cancelled wedding, cancelled contracts- bad month for the guy.

Alex wasn't going to allow this to go on. He needed a fiancée and he blackmailed Sophie into being his fake fiancée..

The verbal sparring between the two was amazing to see. It was as if I was watching a fencing match of two equals.

Much of the time there was a hidden hurt that each was carrying. Once a bit of time and a meager amount of trust and respect could be found, their fake relationship turned to involve the other's heart.

This story was so well done that a short review cannot do it justice.

Characters were fully fleshed out- main, and secondary.

Both families made me want to be included. Sophie's employees were more like family members, jumping in to run her business while she travels with Alex.

The descriptions of all that is Paris was quite detailed. I want "their Paris", as it was so reverently described.

Great read, great job involving the reader to the point of feeling somehow fully immersed in all aspects of the story.

Delight to read!

By Texas

A link to download this book for free was given at the end of Laird of the Highlands and I am so glad I took advantage of the author's generosity. This is not a standard enemies to lovers story. Just because Sophia persuaded her friend to break her engagement to Alex and he now threatens to destroy her baking business if she doesn't pretend to be his fiancée doesn't mean this feisty heroine will quietly submit to his blackmail. Both these characters have issues stemming from the past and their interactions are pointed and snarky in the beginning. Little by little, however, they begin to uncover the real people behind their public personas. Neither one wants to relinquish control and their sparring makes this a really fun read. The book is well written and quite steamy in places. This is a new author for me, but I already have another of her books sitting on my Kindle. Highly recommend.
