One Of The Best Books I've Seen For This Category!

By David

I didn't know what to think when I first laid my eyes on this, but I had a gut intuition that this book had something more to it. I decided to give in and to go along with reading this; which was a great decision.

It is not often that I come across a war-related piece that was as entertaining as this. Lieutenant Rafe Stoner is quite the character and everything a man could want to be in their lifetime.

I would get this if you are like me and can appreciate a good adventure story or if you just want a unique experience all-together.

I am very grateful to have finally found a great book on the topic, because there aren't many and make sure you are ready for one heck of a ride!

Another great read by Meyer

By claudette valliere

Another good one from Meyer, Spoiler alert for those who don't what to know what the book is actually about.

This one starts with Lt. Rafe Stoner and his SEAL team in Afghanistan. They are in an uparmored HUMVEE looking for ambush sites. They are ambushed but kill those doing the ambush.

Rafe and his SEAL team find a UN convoy that was ambushed. Among the dead is Madelaine who the love of Stoners life. Madelaine was supposed to be on a day off but was in the convoy because one of her co-workers called in sick. She's now dead and Rafe is in one world of hurt.

Madelaine was a woman he met after and Afghan beauty, Faria, dumped him for his best friend Greg Blum. Blum and Faria are now married.

Stoner resigned from the Navy and stayed in Afghanistan. He runs a business supplying parts for the Afghan farmers ancient tractors. This is a side business though. Rafe's real business is a a gunslinger hired to kill. He's damned good at it.

Blum is also in that same business though he only works for friends and settles local disputes. He and his wife converted from Muslim to Christian. This is somethingt that will get him killed if the local Immam finds out. Muslim, unlike the Christian religion, is very unforgiving.

Ahmed Durani is the son of an Afghan Farmer and he discovers a cave full of ancient artifacts. He takes one to his friend Fiesal. Fiesal is a man his Father has warned him against time and time again but Ahmed sees the man as a friend so he shows him the artifact.

Fiesal likes what he sees and he knows its worth money. Money is all Fiesal cares about and he will sacrifice anything to get it.

So begins another fine read by Meyer.

This one has Rafe, Greg, Faria, Ahmed, Fiesal, a German Shepherd named Archer, a cave full of artifacts, Sheikh Daud, a Faria taken prisoner, death, destructioin, a Greg and Rafe coming to gether to save Faria, an old tractor that saves the day, an artifact thats more than it seems and Blum and Stoner coming together to save their world.

Five Stars.

Life, Death, drugs and snow

These include the popular SEAL Team Bravo titles, the Raider series, as well as the Echo Six and Devil's Guard series.

When I decided to read this, I expected a testosterone laden, weapons heavy, nonstop action book about spies, special forces types, with lots of gunshots, car chases and various forms of daring do. They were all in this book, too, but I got blindsided because what I \*got\* was a very good, and very disturbing book.

This is the story of a country: a land that has been devastated from without and brutalized from within in ways that anyone who has never lived there can barely comprehend. There are no societal rules, because there is no society, not as we know it. Everything is for sale, and human life is the cheapest commodity of all.

This is the story of people: Many of the people we meet are what should be the dregs of society, instead, because they have money, influence and very big guns, they rule. We also, however, meet decent people, who have come to terms with having virtually only 2 choices; to become corrupt or to become dead.

This is the story of a man: It is, when it comes right down to it, the story of the saving of a man by some truly admirable people and one incredible former member of the Marine canine corps. It is a story of love, loss, bitterness, and, of a soul that fights through the darkness, and almost in spite of itself, finds life, love, friendship and humanity.

The writing pulls absolutely no punches. The author shows life as it is in this destroyed ancient land, and his descriptions are hard edged and vivid. This is a violent story about a violent place, and we are shown that violence in all its gory detail. Action scenes (3/4 of the book) are handled with style and attention to detail, yet read with the swiftness and force of a pounding heartbeat.

There is even humor in this book, which I won't share, because I don't want to spoil the surprise, but I never realized all the uses to which farm equipment can be put.

The author does an excellent job with this narration, and has the kind of voice that is excellent for this type of book. In addition, his phrasing, speech rate and character differentiation were more than appropriate, and he could handle accents and foreign words easily and naturally.

Sometimes, being blindsided by a book, and having my expectations flung into the wind can be a very good thing, as with this book. It reminded me how fragile our human societies can be, and how indomitable the human heart and spirit can be ...and \*that\* is something, I think, of which we need to be reminded regularly.

I give both book and author 5 out of 5 stars.
