This book seems like an early writing by Matthew Dunn

By Israel Drazin

I am a fan of Matthew Dunn books. I read all three of his full-length books and thought that the latest was very good. Therefore I bought this short eleven chapter book. While the publicity for the book states that it is dated 2014, the book seems to me to be an early writing of this master writer of spy fiction. There were too many attempts at humor which sounded sophomoric. The book was too verbose; it was not tightly written. The hero of the tale did not act as he does in other books and neither does his CIA handler. The hero also did things that did not seem reasonable. I also disliked the ending.

On The Trail of A Killer

By Randy Johnson

MI6 agent Will Cochrane has a man after him known only as Trapper. He'd escaped from a base in the Middle East after announcing he was going to kill Will. Will's handlers wanted out of the way and safe.

But Trapper had somehow got hold of his cell number and was taunting him with phone calls.

Will has to get away from the CIA safe house and find this man first.

Recommended for lovers of spy fiction.

To short. I find myself reading backwards. Did not have first book. Still I find it interesting! You are a very good writer. Makes one wonder what is really going on out there in the world.
