Review

" : [Health Science], 8th Edition is a one stop teaching tool for Health Science instructors. The information it provides will prepare students for a successful future in the health care field."

"The new edition will continue to be the "stable," the most widely used instructional resource for secondary health science education program. The revisions and updates will strengthen this textbook and engage the students. "

About the Author

Louise Simmers received a bachelor of science degree in nursing from the University of Maryland and a master's degree in education from Kent State University. She has worked as a public health nurse, a medical-surgical nurse, a coronary care nurse, and an instructor of practical nursing and diversified health occupations. Louise has received the Vocational Educator of the Year award and the Diversified Health Occupations Instructor of the Year Award for the state of Ohio.

Karen Simmers-Nartker graduated from Kent State University with a bachelor of science degree in nursing. She has been employed as a nurse in telemetry step-down and in medical, surgical, and neurological intensive care. She is currently employed as a shift coordinator in an open-heart intensive care unit. She has obtained certification from the Emergency Nurses Association for the Trauma Nursing Core Course (TNCC) and from the American Heart Association for Advanced Cardiac Life Support (ACLS). In her current position as charge nurse in an ICU, she coordinates patient care and staff assignments; manages interpersonal conflicts among staff and/or patients and family members; is responsible for ensuring quality care to meet the diverse needs of patients and/or family; actively participates in in-services to evaluate new equipment, medications, hospital services and supplies; and teaches and mentors newly employed nurses.

Sharon Simmers-Kobelak graduated from Miami University (Ohio) with a bachelor of business

administration degree. She is currently employed in the educational publishing industry as an integrated solutions specialist. In this position, she assists instructors at private career schools in finding appropriate print and digital materials for classroom instruction. Sharon also provides in-service training for instructors on using digital assets and instructor and student resources. She achieved President's Club status for two years, number-one representative status for one year, and has repeatedly achieved quota in her 20 years in the educational publishing industry.

Amazing Book

By CV

I love this book out of my whole college education working towards my nursing degree this is by far one of the most valuable book I have purchased. Even if I didn't pursue nursing I would have loved to have had this book just to read. The information in it is so much that anyone will be able to find it valuable to have. Will not be selling this one back!

Dont purchase!

By Tatiana Cordero

I was told by three separate associates that this would have the access code and guess what? Three times it came without one. I had to spend 200 dollars to get it from a textbook place by campus.
