It will not bother you to reduce your important time to opt for shopping book in store. This way, you will additionally invest cash to pay for transport and other time spent.

EXPLAINING ASEAN: REGIONALISM IN SOUTHEAST ASIA BY SHAUN NARINE PDF

Is ASEAN the foundation of a strong regional community in Southeast Asia? Or is it no more than an instrument used by its members to advance their individual interests? Addressing these questions, Shaun Narine offers a comprehensive political analysis of ASEAN from its creation in 1967 through the events of 2001. Reflecting both the accomplishments and the limitations of the organization, *Explaining ASEAN* explores issues of regional security, economic stability - and the growing expectations of the international community. Narine's trenchant analysis makes it clear that, unless ASEAN can resolve the problems of inadequate resources and disagreements among the member states, its future as an effective, active international regime is doubtful.

Whither Asean

By Jamil Derus

Nariten has not written a well-balanced book on Asean especially with regards to solving its economic cooperation problems. He has tried to provide a good framework on what it takes for Asean to do in the face of the onslaught from India and China.

He might be too pessimistic at times regarding the future of the organisation. But looking back at the past achievements of Asean, he certainly cannot be blamed for this pessimism. Writing from an outsider point of view, Narine at times has depended too much on secondary material. He could have done better by

interviewing the practitioners of Asean economic cooperation, both the diplomats and businessmen in order to make the book even better.

On the whole the book looks like a PhD thesis that it was derived from and the chapters at times lack continuity.

The history of Asean economic cooperation have been better covered by others before and Narine rather than just simply condemning the Asean concept of cooperation could have come up with concrete proposals on how the problems that have engulfed Asean economic cooperation be resolved. A better comparative study will be how Asean compared to SAARC.

Narine should spent more time in SEA and see for himself how the economies that were in a mess just 6 years ago are once again as the dynamo of Asian economic growth.

Pessimism is well-placed at times especially with Asean economic cooperation but that must not deter away from the fact that a lot has been achieved Asean over the last 40 years when even the countries in the association were not even sure of the state of their nationhood.

Narine therefore failed on this score to highlight the achievement while at the same indulging too much on its weaknesses. The day when a similar third world grouping is at par with Asean then only a book can be written to rubbish this SEA organisation.
