A story of love and bravery

By Amazon Customer

I had to search to find this book. It is out of print.

But when our son raised a Guide Dog puppy (a female shepherd, just like Buddy) for Guide Dogs of America as a homeschool project he wanted to learn all he could about these special dogs.

Buddy was a dog guide to Morris Frank, one of the founders of the Seeing Eye. The first dog guide school in the United States.

This novel tells the amazing story about how young man and dog met. And the journey they braved together to teach the people of this country about the amazing independence these special dogs offer.

My son loved it and learned more than just the history of the Seeing Eye dogs. He learned about determination, bravery, loyalty, and love.

Just read the book. It is that special.

A piece of working dog history

By DogTrainer365

This book was written by Morris Frank about Buddy, the first American seeing eye dog. Buddy made it possible for disabled people everywhere to have access rights granted to them so no public place can legally refuse an assistance dog. Morris Frank's desire to be free and the lengths he went to achieve this freedom not just for himself, but all other people who refused to be helpless.

Inspiring and wonderful.

A love story

By CamilleSuzanne

Having lived with, and loved, German Shepherd Dogs for the past thirty years, it would be impossible for me not to see the intelligence and beauty of the breed in this book. Read it. And then, the next time you see someone with their guide dog, think about Buddy and the legacy of love and service she left behind.
