Review

Hepburn is careful not to romanticize Lillian and Audrey's journey: this is no joy ride, though there are certainly moments of delight and laughter. The unexpected relationship that unfolds between the women and Rayne, as he becomes their caretaker and, ultimately, genuine friend, is especially moving. As she marvels at the intricacy of a sunflower, Lillian observes, 'Things are so different when you look closely at them.' This applies not only to these two remarkable women, but to the elderly in general, and certainly to this fine novel.

"Flee, Fly, Flown" is an enticing adventure that has plenty to enjoy, highly recommended reading.

"Well written and lively, worth a read!"

There is comedy, poignancy and an unnerving mix of compassion and dispassion in how Hepburn imagines the challenges of conversations, pain, unreliable bodily functions, confusion and encounters with strangers both kind and vicious.

The book itself succeeds quite admirably at delving into the internal worlds of two women who are only seen as patients, at displaying the complexities of their lives and their ontological integrity despite such a desperate illness.

Lillian and Audrey's adventures explode like spiders across the stars of northern Ontario (and beyond), and readers willingly ride shotgun in Janet Hepburn's moving narrative of madness.

A Fun Insightful Read

By Grateful Grandma

Meet Audrey and Lillian, two ladies with alzheimers who feel like prisoners living at "Tranquil Meadows" nursing home on the locked floor. Lillian hatches a plan that they need to escape and go on vacation without telling anyone. They get their hands on scissors to cut off the arm bands that monitor their whereabouts, get their hands on a car (Lillian kept a set of keys to her car when it was sold to the neighbour boy), get some cash and head off. Lillian is not the best of drivers, so when they meet a nice, young man, Audrey is able to convince him to drive them to B.C. where his home is. It takes a day or two, but "Rayne" finally figures out these are not just two nice old ladies on vacation, there is definitely something wrong with them, and so the fun begins. When they do not want to get caught they decide to call themselves Lucy and Ethel, of course the youngsters they meet do not realize the irony of that. They become like a little family complete with a dog they find along the way. They share information about their lives with one another in between their stops, overnight stays and funny situations.

This is a great road trip story. We gain some insights to the world of dementia as well as the life of someone living in a nursing home that really does not want to be there. We also gain some perspective on the struggles of someone young trying to make their way in the world. The pain and anguish Lillian's family must go through not knowing where she is or if she is hurt was apparent in the brief glimpses with phone calls.

This story gives us an appreciation of what it is like to get older and lose some of your faculties. It also reminds us to be gentle and kind to others, do what you can to help them and sometimes it is important to slow down, admire your surroundings and take a vacation.

I received a copy of this book in exchange for an honest review.

A Must Read!

By Lynn Worton

I received a complimentary copy of this book from the author in return for an honest review.

This is not my usual genre of book, and when I was first approached about reading this story, I was going to turn it down. However, after reading the synopsis and thinking about it, I decided to give it a try. I am so glad I did, because I LOVED it!

Lillian is a wonderful lady. I loved this feisty octogenarian. I could imagine her as a younger woman with a backbone of steel and a penchant for taking risks. I began to cheer her on, as she embarked on an amazing adventure with her friend Audrey, and a young man called Rayne.

Audrey is also a wonderful character. She is a woman who has not had an easy life, though her mousy demeanor hides her adventurous spirit. Her trusting nature is one thing I loved about her. She is probably the best friend anyone could have, as her loyalty is given to so few.

I started to read this book, expecting it to be a comedic adventure. How wrong I was! This book took me on an amazing adventure with two strong females struck down by a disease that has stripped them of freedom and dignity. I struggled to put this book down, and even then, it was grudgingly when I had to.

Lillian and Audrey, in their "sane" moments, realise that there is more to life than watching TV and taking pills in a nursing home, and plot an escape to have a holiday from the constant, unwanted attention of the well meaning nurses. Their minds, dulled by the disease at times, are incredibly sharp and curious when lucid. This made for some humorous events, including the scene where Rayne was recruited to drive the two ladies from Ottawa to British Columbia. Their journey is full of anecdotes of the lives they once had, which brought these characters to life in my mind's eye. Rayne is a troubled young man, but his empathy and sensitivity towards the two older women was very touching. I liked this young man. He is kind, considerate and, although a bit selfish at times, caring. I found the ending to be a bit bittersweet, but I will find that this story will stay with me for some time to come.

Alzheimer's is a disease that, thankfully, has not affected my family. Yet. However, this story has opened my eyes to how people affected by this disease are basically prisoners to it. They have no idea that they are sick, and when the episode has cleared, there is no recollection of their behaviour or actions. However, when they are "normal", they find themselves confined or too drugged to understand. Putting a person with Alzheimer's into a home is a hard decision for a family. However, some people cannot look after their family member/s the way they need, so a home is the only option. Although I have great sympathy for the families affected, I also feel for the person afflicted by the disease. It can't be easy to find yourself in a place that can restrict your freedom, and make you feel like you have no dignity left.

Janet Hepburn has written a fantastic debut novel. I love her writing style, and the flow was wonderful. She has dealt with the subject of Alzheimer's with sensitivity and care. I would definitely read more of this author's books in the future.

I highly recommend this book to everyone, whether you know someone with Alzheimer's or not. - Lynn Worton
