About the Author

I am a writer as well as a professional editor. My diving into writing started way back in 2006, after failing Sophomore English in high school, both semesters. During summer school I ended up with a teacher who twisted his rhetoric slightly to incorporate a section on "Creative Writing" something that I had never experienced before then. I instantly fell in love with writing and my stories since then have never ended. Six years after that fatal 21 days of summer school and I had flipped my entire world upside down. I went from a prospective business major with AP Calculus, and AP Physics in his Senior year of high school to a graduating English Major in 2012. I literally made it my goal to turn English from my (by far) worst subject to my best, spending countless hours in "self-research" mastering grammar, sentence structure, details, and description. I continued to fail in English despite this, scoring "below average" on the College Entry exams and being forced to take "Pre-English" classes, even failing the first Pre-English class and taking another. I Also failed the WPA during my third year of college, making me take two more classes. Even so by the end of it all I had maxed out my English credits with my degree and graduated with a 3.3 overall GPA (3.7 in upper division English). Now people come to me to learn how to write, and I work as a Professional Editor. Ironic how things switch around. To-Date I have written several novels, starting with "The Human Xenocide" which is not yet published. I dove into Erotic Fiction back in March 2012, publishing *I Survived the Witch (Freelove Series)* shortly after. As of now I am working on book two of the Freelove Series. I plan to continue writing and hopefully publish more erotic novels as well as my non-erotic, probably under a pen-name simply because I'd rather not get the two types of writing confused.

So, the way for you to get this [I Survived The Witch \(Freelove Series Book 1\) By Cameron Cook](#) will be so very easy, will not you?

I SURVIVED THE WITCH (FREELOVE SERIES BOOK 1) BY CAMERON COOK PDF

I Survived the Witch is an Erotic Novel written by Cameron Cook.

This book is the first installment of a series following in first person, Alice, who gets kidnapped one night and thrust into an evil word bount on driving all its victims into sexual lunacy. Alice survives, escapes in fact - but at what cost? This is her going back and telling her story, a story of the pure will to escape a world a woman is not meant to survive.

Follow Alice in this first book as she wakes up bound in a dank dark cell, meets the leather-clad Witch and escapes the cell--only to be screwed by everything and anything that comes across her. Expect many fetishes such as clit enlargement, tentacles, BDSM, eggs, breast expansion, enema, monster-sex, dual penetration and so many more.

I Survived the Witch is part of an Erotic novel series based around various fetishes--the idea was to write out as many fetishes as could fit into a single book, including some more disturbing ones. The book doesn't stick to one fetish for too long and fluidly moves between scenes. With so much happening there really is no idea where the book will lead or how Alice will ever escape the Witch.

Due to the nature of its content I strongly suggest to those who are unfamiliar with fetish sex to stay away from this book. If you don't like some of the few genres above then you won't like what's in this book. If you want your normal love-affair erotic novel, then this book is NOT for you. You have been warned.

Exceptional !!!

By Jo.B

First off, I would like to say this is an amazing book, very well written and intense in every way that I like. This book is unique, a one-of-a-kind and I would certainly recommend this book to anyone who is into fetish erotica.

The basic idea of the plot: pretty much Alice gets taken by a strange green man to some underground mansion, bound and held hostage. The Witch, master of this underworld (not called that name till much later) meets her and teases her with an electric rod. When Alice becomes aroused it turns the Witch off, who gets off by forcing girls into sexual lunacy - she doesn't want girls that actually enjoy the act, least not at first. Alice turns out to be a dirty girl who watches way too much porn and is obsessed with fetish sex (even though she herself never dares to participate in it, even alone). So all the things that happened (and will happen) to her are fantasies she never could have.

Using her wits and unusual calm in her situation(s) Alice escapes her initial bounds and beings roaming the grounds, everything and everyone she meets wants to have sex with her, some forcing her into it but some she does willingly figuring sex would be better than being called out by the person asking, and thus ending back in the Witches hands. Most of the people and creatures she encounters get broken "second helpings" to the newcomers, so catching a "freshie" is a big deal--they rather keep Alice to themselves or just have a little fun instead of returning her to the Witch and thus "breaking her". She angers a few people, scares a few people, and gains the respect of others. Friends, foes, companions all show themselves - all tools in her eventual escape - it's not told how she escapes only that from the very first page that she's retelling this story after she had escaped, that she will escape. This is a story of her escape after all.

As a reader I was trying to connect the dots, how every sex partner she came in contact and would help her during a second book. This first book was just a set up--introducing the world and the characters in it. Now figuring out how all the pieces complete a puzzle, I'll just have to wait for the second installment.

But enough of praising how amazing this book is now, let's look at the hard facts; this book is NOT for everyone, and NOT for the lighthearted. My fingernails are gone and my heart now beats at a slightly faster rate.

Now, when I said the book isn't for the lighthearted I mean there are scenes that get pretty intense, expect light gore, less-than-perfect (in appearance) characters, and even on a few occasions death. The story also goes through various fetishes some including electric torture, absurd amounts of come, clit enlargement, BDSM, eggs, vines, wolves (more like werewolves), vore, and dual penetration. These events are shown in a combination of the main character having it happen to them or watching it happen to others. So scenes will vary between first person and a third person perspective.

That said, this book is still quite amazing the sex scenes describe every gooey detail and the word variety is exponential, and I absolutely love reading Alice get screwed over and over, filled up repetitively by everything she comes in contact with, and every time I feel a scene was the cream of the crop the next one topped it.

Summary: totally worth the purchase if you like fetish sex. Be prepared that once you start reading this book, you will not put it down until it's finished. It has had a copyedit to fix typos and other flaws that were required but not relevant to the story's content, minor detail though. Still a 5/5 in my book.

Needs a proper edit

By CrystalLyn

I am familiar with dark & fetish books and was intrigued by the plot of the book. I was extremely disappointed in it and almost couldn't finish. The author gives fair warning of the content, however the content does not flow in a coherent manner and the scenes described are awkward and often left me confused trying to figure out what was going on and what exactly was being described. As for the dark and disturbing context alluded to by the author? Yeah, not so much. Above all however, is the numerous grammatical, punctuation, and spelling errors. On the positive side however, great cover!

Honestly, I LOVE a disturbing book especially eroticas but this...

was absolutely gross! Disturbing does not even begin to explain this book. I wish I could unread this whole book and be back to normal.
