# LANDFALL (THE TALES OF ALBION) BY PETER NEWMAN PDF

Albion. Land of mists and mysteries, where mankind resembled gods. But these gods were flawed and they turned their powers on each other, making rivers of blood and birthing horrors we were not meant to know, until giants battled demons over the fate of the world. And then, as the fighting reached its peak, a great power reached out and Albion simply vanished. For over a thousand years it has been hidden from the eyes of men. When the impenetrable mists hiding Albion began to lift, the King of the Old World sent a rag tag group to explore and settle there. Initially, reports of wonders and wealth came back, then, without warning, all went quiet. Now a new convoy is being sent, seven ships sailing for the mysterious land of Albion. Their crews and captains have many reasons to risk the journey, a mix of opportunists, adventurers, and those keen to leave behind their old lives. But the sins of the past are not so easily left behind and the lure of power and magic weaves its spell long before arrival. Before the ships have even made landfall, old rivalries simmer and, without warning, one ship turns its weapons upon another... Landfall is the first novel staged in the world of the internationally popular MMO game Albion Online. Albion Online is the first true cross-platform MMO available for Windows, Mac, Linux, iOS and Android. The game offers players an extensive character customization system with no class restrictions, a completely player-driven economy and dynamic PvP battles. The action of the open game world revolves around sieging, claiming and defending territories.

Good job!

By Amazon Customer

I usually don't write a lot of reviews and I don't have a lot of time so this will be short and sweet. I have to say that this is one of the most well written books I have read in a long time. Even if you have never seen or heard about the computer game, Albion Online, this is just an all around great Fantasy.

It always takes two or three chapters for any book to really start drawing me in but once I was into this book

I couldn't put it down. The characters are all well written and fleshed out for the most part although I wish there had been a little more story on a few characters, but maybe we will see a sequel.

Well done Peter Newman!

I quite enjoyed the book

By Joe Snider

I quite enjoyed the book. I was a bit hesitant to get the book. I am an Albion Online fan, and I was worried that a book produced on a sandbox MMO would be a bit lacking. However, I was pleasantly surprised.

The book follows the journey of two groups who came to Albion to stake out their claim. However, their ships never make it to the docks and they wash up ashore. The book follows the journey of these two groups who must figure out how to survive and prosper in the harsh wilderness of Albion. The two groups conduct business very differently, and its quite enjoyable to see the contrast.

As for the writing, its often light heated and comical. I could predict most of the story, but some things caught me off guard. I think the writer's style is great and I will definitely look into other books he wrote.

If you play Albion Online, this book incorporates the world of Albion into a fun story. If you aren't an Albion fan, it's a fantasy story with a little bit of a twist on how magic works in a vast unexplored new land.

So, a tie-in novel for an Online Game...

By Amazon Customer

... that usually promises rather average quality. As it happens with most Franchise novels, especially in the Fantasy sector, it usually is very predictable and on a semi-decent level - after all, gamers seem to be unable to cope with plot twists or clever writing.

So I was very hesitant to actually buy it. But since I am a die hard Albion Online fan, and I was hoping to see those promised references to players and guilds from within the game, I took the plunge, went ahead and bought it.

And boy, was I pleasantly surprised. The fact that Peter Newman a great author with a track record of compelling fantasy stories, wrote the book really, really shows. The characters are very believable and fascinating, the story pace is great and when I recognized names of players whom I actually met (or even beat) in the game that actually made it into the book, I was smiling every time.

I just hope that there will be a few more like this.
