We will show you hundreds collections of the book *Mythical And Fabulous Creatures: A Source Book And Research Guide By Malcolm South* to read. If you such as this *Mythical And Fabulous Creatures: A Source Book And Research Guide By Malcolm South*, you could additionally take it as all yours.

From Library Journal

This serious, scholarly treatment of 20 imaginary beings, from dragon and phoenix to giants and fairies, discusses the origin of each as an idea, its symbolism and lore, and its appearances in art, literature, or film. Extensive bibliographies follow the generally ambitious and erudite essays, while a final catch-all article and selective bibliography cover still more ground, at a gallop. Although much of the book is concentrated and heavy going useful, as the subtitle suggests, mainly for reference there are a number of thoughtful and well-written interpretive investigations into the nature and history of some persistent types. Entries on the Basilisk, Harpies, Medusa, and the Sphinx are particularly fine: here one feels that the mystery and power of these imaginative creations is not vitiated by scholarly taxidermy. Patricia Dooley, formerly with English Dept., Drexel Univ., Philadelphia

Review

?This serious, scholarly treatment of 20 imaginary beings, from dragon and phoenix to giants and fairies, discusses the origin of each as an idea, its symbolism and lore, and its appearances in art, literature, or film.... Extensive bibliographies follow the generally ambitious and erudite essays, while a final catch-all article and selective bibliography cover still more ground, at a gallop.... [There] are a number of thoughtful and well-written interpretive investigations into the nature and history of some persistent types. Entries on the Basilisk, Harpies, Medusa, and the Sphinx are particularly fine: here one feels that the mystery and power of these imaginative creations is not vitiated by scholarly taxidermy.?-Library Journal

?Essays by 18 contributors about 20 imaginary creatures provide information on their probable origins, symbolism, legends, and appearances in history, literature, and art. All the creatures, including those mentioned in a catchall essay for lesser-known beings, are accessible through a meticulous index, which also includes literary references in the text. Excellent bibliographies follow each essay, and a glossary and a taxonomy of creatures are appended. Most of the material is drawn from Indo-European sources, with occasional references to the Far East, North America, and Africa. Literature' begins with the most ancient texts and continues to current fantasy novels, while art' includes painting, sculpture, jewelry, movies, and T.V. This makes for wonderfully serendipitous bibliographies ... [this] book provides thorough

documentation of the best-known creatures of fantasy with a breadth of coverage that is both impressive and delightful. Recommended for all libraries supporting research in mythology, fantasy, folklore, or popular culture."-Choice

Learned some things

By Samuel

My boyfriend bought this for me because I enjoy writing and reading about mythical creatures. I thought it would serve as inspiration for my own writing, and though I didn't come across any creatures that were unknown to me, the book offered information about popular myths that I was unaware of. So it wasn't a complete waste of time. This book would have been greatly improved by including more rare, not-as-heard-of creatures.

4 of 4 people found the following review helpful.

A lot you'd never find out without reading this book

By A Customer

This book has so much information on mythical creatures.I was looking for information on mythical creatures and I couldn't find much of anything besides books about unicorns and dragons.This book doesn't have it all but it's got an awful lot.Go order this book,even though it's out of print it's still worth the wait.
