Good Companion to Praying Through the Window III

By Carissa L. Norris

This book focuses on the major urban centers in the 10/40 window. The background and statistical informaton for each city (including unreached peoples) is laid out in easy to read format. A map is also provied for each city and can help one keep the city in perspective. Specific prayer requests are listed for each city. I have found this book to be an excellent companion book to Praying Through the Window III: The Unreached Peoples. Using these books in tandem will not only make your prayer life more focused, but will also give you a deeper appreciation for other peoples around the world.

Good book. Lots of interesting informatin. Wish it was written in a format that was more appealing and easier to digest.

By Sherry Garnett

I've never read a book like this before but it was one of my son's homeschooling read alouds this year. I really like it in some ways... its introduced my son and I to places we knew nothing about, showed us their strengths and struggles... and how we can pray for and help others in these areas of the world. The information is rather dry for most cities, but still very interesting nuggets.... just wish it was written in a more appealing way for children.... and adults. On at least one of the pages, the cities information is presented in story format and that really made it a lot easier to put ourselves into the situation.
