A book that forced a conclusion.

By Howard Tuckey

THE AFRICAN SONGBOOK: A TRAGEDY IN FIVE ACTS None of the three choices suggested for how I would describe the plot of this book would do justice to the way I feel after reading it. I have read stories and books, both historical and fiction, about the Mau-Mau uprisings before, and could describe them, yes, but this book was not like those. It is terse, compact, and it moves quickly, yet for all that it speaks to something inside. I remember reading newspaper and magazine accounts of these things when I was a youngster, and they were frightening, in a romantic, adventurous sort of way. But they never spoke to me as this book did. It may sound trite, or cliché, but this book managed to bring back a memory and make it more real than I had imagined.

I did NOT get the feeling that the author was writing it as an indictment, nor was it overtly judgmental, but in reading and reflecting on it, I myself arrived at conclusions that I realized I had avoided long ago. I will not share those conclusions here, as they are best reached within the depths of one's own being.

I would say this is a must read, a book that should be read with an awareness of those things past, and an anticipation of things to come. And I would hope that it is not too late.
