My first bear shifter....

By VaudevilleMomma

I recently decided to expand my reading repertoire to include a little paranormal hotness. I had read of werewolves... but never a bear.

I'm SO glad I started with this one. Not certain if it ruined me for all others. :)

Smoking hot book, fast paced story and a perfect blend of intrigue and growly goodness.

I WILL be reading a lot more of Doris o' Connor.

A Great Paranormal romance

By Booklover Sue

This book has it all! Cole, an alpha bear shifter with secrets, and Emmi, a human stranded in a town of rogue shifters during the full moon, are such a interesting couple. Cole immediately recognizes that Emmi is his mate and does everything he can do to protect and claim her. Their courtship is so sizzling hot yet filled with misconceptions. I loved that Cole had to work to win Emmi's heart. I did not read the first book in this series and don't feel it is absolutely necessary as I didn't feel lost but would recommend you do if you want to get a better background on some of the characters in this tale. I will be getting it and the next in this series as my

attention has been captured by this compelling story.

Fast, Furious & Fornicating!

By Snarky Mom Michelle

[Originally posted on Snarky Mom Reads] THE BEAR PROJECT is the second in “The Projects” series – but you do NOT need to have read THE ORGASM PROJECT in order to understand any of the character connections or back story (I actually read THE BEAR PROJECT first). This is 148 pages long and currently priced for \$5.50 at Amazon. (Cue publisher pricing rant.) I did receive a copy of this from the author because of my relentless begging and wanting to do a read & review. Now that all the disclaimer crap is handled, here is what I thought...

I got my copy late last evening and once I started it, I decided I could NOT put it down. Who needs sleep? Emmi is an animal conservationist who focuses on bears. While on vacation in the US she goes on a bus tour to a wildlife area and the bus makes a stop in a town where she inadvertently gets left behind. She’s in a bar where Cole gets one whiff and recognizes her as his mate. This book starts out fast, furious and fornicating... and boy oh bear, this is some H-O-T fornicating! Be prepared – there is a little spanking, oral & anal sex. This is strictly m/f – when Emmi, who works with Maria and is introduced to Anastasia and her mates from THE ORGASM PROJECT, realizes they have a shifter menage mating, her response is... “greedy”.

Emmi returns to England and then realizes she returned with a very special souvenir from her trip to the US. Once Maria realizes who the Baby Daddy is, they realize that Cole won’t be far behind – because he’s not the drifter he made himself out to be when they met in the US. It’s obvious in this book that the author is also setting up the conflict for the next book; I do wish there had been a bit more about the shifter politics / prejudice in THE BEAR PROJECT because I felt as if the introduction of danger to Emmi was a bit abrupt.

Would I recommend this book to you? DEFINITELY. The sex scenes are imaginative and the shifter setting is fun, especially since Doris O’Connor focuses on a bear shifter instead of the more (standard) used wolf shifters. There are bursts of humor that will have you chuckling out loud; sappy sections that will have tears falling; and some battery-stash checking sex scenes! Go pick up your own copy today (because you can’t have mine LOL!!).
