Mike is doing better in school these days. Learning magic helps him to learn other things as well. Sure, he's gotten in trouble in the past, but things are different now. So why does everyone still think he's the same old Mike? If only there was a magic trick to change his reputation... Then, during one of his visits to The White Rabbit Magic Shop, Mike finds something that could be even better than a magic trick-it's possible that Mike could be related to Harry Houdini-the greatest magician ever! But when Mike lets the news slip, and Jackson Jacobs dares him to prove it, he knows that he's in the type of bind that only magic can help him escape!

By Kathy Lennox

The Magic Shop Series is a wonderful choice for an easy read for children in Grades 1-5. The books are exciting, clearly written, with advice, on how to succeed in school, subtly interwoven in the stories. The magic tricks interspersed throughout each story only add to the interest, both for budding magicians and non magicians alike. The step by step directions on each magic trick are easy to follow and, what fun, reveal how and why a trick works, evidence that Magician Mike Lane knows his subject!

These would be wonderful additions to a public and school library, or great gifts from parents and grandparents.

The story keeps getting better. The kids and I enjoyed reading about Mike's latest adventures. We can't wait until the next book comes out! In the mean time, the kids are working on perfecting the magic tricks they learned from the book.

Great Story and Awesome Magic Tricks

By Katherine Chan

Guess what book we saw at our local library and had to check out immediately: The Great Escape! The third book in the Magic Shop Series continues the adventures of fourth grader Mike Weiss. Mike is an average fourth grader who is doing something extraordinary - he's learning the secrets of magic all while unraveling the mystery about Houdini from the previous book, The Twisting Arm. My kid who is into magic really got into this book. The story is interesting, the characters are likable, and the best part - there are magic tricks peppered throughout the story which pertain to the main story line. For the curious, the tricks noted in the book are In My Mind's Eye, Rising from the Deck, Cool Coins, and The Great Escape! All the tricks included can be done with household items (decks of cards, coins, rope, etc).

With an engaging story, likable characters, and plenty of cool magic tricks, this would be a great book for any young reader who is interested in magic.
