'The English-speaking world is divided into those who have read The Lord of the Rings and The Hobbit and those who are going to read them.' Sunday Times 'A story magnificently told, with every kind of colour and movement and greatness.' New Statesman 'Masterpiece? Oh yes, I've no doubt about that.' Evening Standard

From the Inside Flap

**THE GREATEST FANTASY EPIC OF OUR TIME**

The dark, fearsome Ringwraiths were searching for a hobbit. Frodo Baggins knew they were seeking him and the Ring he bore—the Ring of Power that would enable evil Sauron to destroy all that was good in Middle-earth. Now it is up to Frodo and his faithful servant, Sam, with a small band of companions, to carry the Ring to the one place it could be destroyed—Mount Doom, in the very center of Sauron's dark kingdom.

Thus begins J.R.R. Tolkien's classic The Lord of the Rings, which continues in Two Towers and The Return of the King.

Very nice set of books for the price. Recommended. Read review and view pics for detail on font for pocket-sized "paperback."

By B

Very nice books, binding seems nice. I love the covers although they are not "paperback" and are more of a fake leather material. These books are beautiful and very convenient. They are pocket-sized which is great for on the go, they aren't too small or too big (actually bigger than I anticipated which is a plus). The font size is readable, the only thing I would have to note is that the font size isn't the same throughout the different books. The font size seems to be based on the length of the books, the longer the books are, the smaller the font is (I suppose this was in order to keep them pocket-sized as well as consistent with the sizes of the other books throughout the set). If you have decent to good eyes, this set would be perfectly fine for you on the go but those people who don't have as good of eye sight, because I know some people who tend to get headaches while focusing on small font, this set may not be for you. I will upload some pics of the font comparisons, books, etc.

Stunning Collectors Edition

By Benjamin D

Having only an old 1994 worn paperback edition of the *Lord of the Rings*, I wanted to purchase a version that I could read and display for many years to come. I did a ton of research and decided upon this version (ISBN 116-1749849-2513827), illustrated by Alan Lee and published by Harper Collins in June 2014 (I am adding these details because the Amazon.com site does not make it clear what this version is). Please note that this particular printing is NOT available in the US but any Tolkien or LotR devotee should not be deterred (Frodo wouldn't have been!). I must say that this is the finest published one-volume version of the LotR that I have ever laid eyes upon, and is well worth every penny. It includes approximately 50 high-quality color illustrations by Alan Lee, which even for a 30-something like me makes the reading experience exceptional. The front and back covers are made of durable, high-quality cloth (as shown), with a strong and handsome turquoise binding. The pages -- not just the illustrations but the entire book -- are glossy and made of "whiter" paper than you generally find, the margins large, and the typeset easy on the eyes.

For those who care about such things, the printing is based on the 2004 corrected text, with even further corrections. There are updated introductions/forwards by Wayne G. Hammond & Christina Scull, authors of the authoritative "LOTR Readers Companion," as well as by Douglas A. Anderson, who provides a detailed publication history of the *Lord of the Rings*. The full appendices are included.

Two-page red and black maps of Middle Earth and of Gondor/Rohan/Mordor adorn the front and back covers, with a map of the Shire before the first chapter. Also present are other essentials such as the Doors of Moria and the Tomb of Balin. The only drawback is that the facsimile pages of the Book of Mazarbul was not included, which I found to be surprising and a bit disappointing. Also, the ring inscription and the Gandalf "rune" are printed in black rather than silver and red. Probably the main issue is the clear plastic slipcover, which is barely bigger than the book itself, and it is difficult to slip the book back inside it after taking it out. You are more likely to scuff the corners of the book. That being said, these are far from dealbreakers, and the joy to be received from owning this edition far outweighs these issues.

still amazes and remains one of my all time favorite books.

By Sapphire1864

I absolutely ADORE this book.. I will put all that aside and review the copy of the book I actually received. I am thrilled to finally own my very own copy of "The Hobbit". I bought a brand new, in shrink wrap, paper back, in "like new" condition and that is exactly what I got. However, because of the picture listed on this ad I was expecting the black cover with the golden mountains. I was slightly disappointed that my copy was the cover from the movie "The Hobbit" but considering what I paid for it... I cannot complain. I know many would have been very unhappy because some are sticklers for book covers. I try not to be too nitpicky since they both read the same. Aside from that this book was exactly as advertised and I am so happy its here. On a side note- the book was nicked on the back where the bar code is but I would not be surprised if that happend during shipping. Also this book has a few illustrations in it. They are few and far between but they are there. That was a nice surprise.
