Martin Jr.* fully. Naturally, it will certainly not obligate you to take many pages. Just web page by page depending on the time that you need to check out [The Tree Of Life Bears Twelve Manner Of Fruit: An Alchemical Story By Dr. Robert R. Martin Jr.](#)

THE TREE OF LIFE BEARS TWELVE MANNER OF FRUIT: AN ALCHEMICAL STORY BY DR. ROBERT R. MARTIN JR. PDF

This is the ultimate story of the human race. It is the story of the manna and the bread of the covenant, the story of the Philosopher's Stone and the Phoenix. The story you are about to read is a guide and a milepost and will change your life forevermore. This story contains history, science, lore and fantasy. It is the stuff that movies are made of; yet there has never been a movie made about it. It is a story of the reason for our existence as a species. This story is scientific, yet metaphysical; it is religious, yet heretical; and it is, above all, alchemical. This story may seem fantastic but it is truthful to the best of my ability to communicate it. There is something here for everyone, yet some will toss it aside, for they will not be ready for its life-changing message. Others will cling to it and, as a result, begin new quests in life. And no one who reads this story will remain unchanged.

For all those curious or knowledgeable about Alchemy and ORMUS

By Dorothea Preston

I had been familiar with the work of Dr. Robert Martin before reading this book, and I definitely knew that

what I would be getting would be a deeper, richer tour through vast swaths of literary, biblical, esoteric, and many other areas of knowledge and research in which he is proficient and fluent. I did not expect it to be so much fun to read, doing a terrific job of linking my gaps of knowledge in the evolution of a substance called "ORMUS", and a practice called "alchemy".

The Tree of Life Bears Twelve Manner of Fruit, An Alchemical Story, is the first book I have read that coordinates the distillation of many areas of complex esoteric knowledge in one place. The book is clearly written by a true teacher, someone who is eager that whoever is reading the information will grasp it within the context of other information they may or may not be familiar with. Information is re-introduced and cross-referenced within the book itself, which helps to build a knowledge base as one reads. For those familiar with the work of Dr. David Hudson, this book is a must read.

Many of the sections on the actual chemical compositions of ORMUS, and the actual creation of ORMUS might be lost on those who have not trained in the areas of chemistry and/or biochemistry, however, the rest of the book does a great job of creating a coherent base of knowledge from which one may start to inquire and learn further. The basic practical and health applications for ORMUS, in it's many forms is laid out clearly.

Even if you don't believe that the Annunaki (beings from a distant planet) are real, and helped to create the human race, or that alchemy was simply a misguided greed-based quest for gold, the book is an absolutely elegant un-winding, and in many instances for many people, unveiling, of the evolution of one of the most mysterious and hidden and closely guarded realms of knowledge of human-kind. It is a compelling case that the search for gold is simply the beginning of a very long journey to the center and seat of nothing less than the heart and soul. Over and over Dr. Martin is able to relate this as universal human knowledge as expressed through many shamanic, religious, and cultural beliefs and practices around the globe.

It is time for this information to come out

By Edward Melchizedek

For those with ears to hear:

The use and manufacture of the substances described in this book are important at a fundamental level to the discovery of our full potential as conscious, spiritual beings.

If you are not already studying alchemy, this book may inspire you to drop what you are studying and become an apprentice.

If you are reading this review, consider it a synchronistic sign from the universe to get the book.

Sincerely,

Edward Lewis

Not useful, impractical..

By J.S.E.

The information contained within is so esoteric & impractical that it is useless. I would not spend good money to buy it given the choice again.
