When a spoiled Little Wolf pooh-poohs his Lamburger and Sloppy Doe dinner, Father Wolf dreamily recalls a true delicacy. There was a time when a clever wolf could snatch a shepherd boy off a hill, he muses, leaning back in his overstuffed easy chair. Why, there was nothing better than a steaming plate of Boy Chops... and some Boys-n-Berry Pie. He and Mother Wolf promise to cook the first boy their finicky son can find. Thereafter, Little Wolf teases his nostalgic parents by yelling, Boy! Boy! for kicks. By the time Little Wolf spies a dozen plump Scouts hiking through the forest, his folks don't believe him anymore. Hartman (Bible Bad Guys) names many storybook meals, including Three-Pig Salad (with bricks, straw and sticks) and Granny Smith Pie, but never explains why boys are such an elusive quarry. Raglin (*The Thirteen Days of Halloween*) pictures the wolves as rustic homebodies in old-fashioned clothes, and Little Wolf as a prankster in short pants. His fine-line pen-and-ink illustrations, which have the dense crosshatching of woodcuts, seem immobile despite the keyed-up activity. This glib reversal of *The Boy Who Cried Wolf* has its slapstick moments, but can't top Jan Fearnley's Mr. Wolf books for sinister hijinks. Ages 5-up.

Grade 1-3-In this fractured Aesop's fable, Little Wolf longs for "boy" for supper rather than his mother's usual fare: Lamburgers, Sloppy Does, and Muskratatouille. When his parents promise that if a boy shows up, they'll track him down and cook him, Little Wolf puts it to the test right away by calling, "Boy!" which achieves the desired result of ruining dinner two nights in a row. His parents catch on and decide to ignore their son just as a pack of Boy Scouts shows up, with one even invading the den, much to Little Wolf's despair. Hartman's spare storytelling style is enhanced by Raglin's textured pen and colored-ink illustrations that are packed with nifty details: Little Wolf's high-tops, the wolf emblem on the scouts' flag, and the decor of the wolf den. A fun twist on a traditional tale.

PreS.-Gr. 2. Two funny turns on a familiar tale: Hartman's twists species; Levine's twists gender.

In *The Wolf Who Cried Boy*, Little Wolf wishes for something besides hamburgers and sloppy does for dinner. Actually, he'd prefer boy. Father agrees that if Little Wolf finds one, he can eat it. So the next day, to avoid another boring dinner, Little Wolf screams, "Boy!" His parents run, sniff, and search, but don't find a boy. Little Wolf thinks that's so funny, he pulls the same trick again, and his parents catch on. When Little Wolf sees a troop of boy scouts, he can't believe his eyes. Of course, his parents don't believe him--even when a scout makes himself at home on the wolves' couch. Unlike fractured fairy tales that rely simply on premise, this one finds humor in the details, in both the story (Granny Smith pie featuring a "hard, crusty" granny) and the art (the mischievous scout, emboldened by the wolves' disbelief). Raglin's sturdy pen-and-ink pictures, which soar above their cartoon styling, are electric with fun.

In *Betsy*, the illustrations are also more than simply amusing. Nash uses balloon captions for his sheep to express their thoughts about Betsy, the new eight-year-old shepherd. Betsy is determined to be the best shepherd ever, but Zimmo the wolf has another plan. Betsy spots Zimmo, who has all the characteristics on the wolf checklist, but he disappears when the grown-ups show up to check him out. The next time that happens, Betsy is sent back to shepherd school. The third time, Betsy deals with him herself and makes him a friend with her shepherd pies. The pacing slows a bit at the end, but there are some laugh-aloud moments and children will identify with the feisty, young shepherd. There's a glow and a flow to the pictures that add shine to the story. Ilene Cooper

Cute

By Amazon Customer

This is a cute story about a small wolf who hates his mother's cooking: lamb burgers, sloppy does, and chocolate moose. What the wolf really wants to eat is a boy. To avoid his mother's cooking one night, he tries the ploy of shouting "boy". It works--his parents run out of the den in search of the boy and dinner is ruined. Of course, when a real boy actually appears in the neighborhood, the small wolf can't get a rise out of his parents, so he has to learn to eat lamb burgers after all. Some kids might find the book a bit scary, but for those who can handle the tension, it's a fun story. The book has about 1200 words.

You'll wolf it down!

By A Customer

My daughter and I were lucky enough to discover this on the "new books" shelf at a local library, and it quickly became a favorite... a great twist on the original fable, combined with a hilarious fussy-eater subplot. We had to buy our own copy. The wordplay is delightful ("chipmunks and dip," "muskratatouille"), and the cheerfully sick sense of humor ("there was nothing better than a steaming plate of Boy Chops, a big Baked Boy-tato, and some Boys-n-Berry Pie") is exactly what kids love. The illustrations have a quaint, old-fashioned cartoon aspect which perfectly suits the story. I did think the ending was a bit quick and pat for such a rollicking and imaginative tale, but it seems ungracious to note even a minor flaw in a book that's so much fun.

Entertaining, refreshing presentation of the famous fable

By Primadogga

Writing is excellent and witty - one simply can't resist falling in love with a book that includes menu items such as "lamburgers" and "Granny Smith pie" - and the illustrations support it well. Better done than the run of the mill fairy tale parody, and thus far superior to the average fairy tale presentation.

The humor is invaluable when trying to stuff a moral down kids' throats - they respond relatively well to being reminded that they are crying "Boy!" (especially when presented comically) - and it also helps them relax and back away from the precipitating issue.

AND - it's a lot of fun to read aloud, especially if one hams up the voices. Highly recommended for (parents of) bright, lively kids, ages 3 and up.
