Be warned - you may already own this book! Also called "[Skating Shoes!](#)"

By Stock Photo Guy

Love Noel Streatfeild and was so excited to see a title for sale that I hadn't read before published new. Sorely disappointed when I started reading it and discovered it was a book I already owned under a different title - "[Skating Shoes.](#)" It's not often I buy a new book for myself and this purchase was a waste. The description should mention the book is also sold under a different name. I would never have guessed that the story of Harriet skating would have anything to do with white boots, and don't think a customer should have to research that - be upfront on the seller side if you want happy customers.
